EXPERIENCE

Full Stack Developer

Tarqueem For Informations Saudi Arabia

11/2023- Present

I possess expertise in crafting dynamic and interactive web applications using Laravel and Livewire. To ensure optimal performance, I leverage Redis for caching and queuing, streamlining job execution. Furthermore, I excel at designing user interfaces that facilitate CSV file uploads and the creation of engaging visualizations with Highcharts. My commitment to quality is evident in my implementation of comprehensive testing procedures, guaranteeing the smooth operation of all developed features

Freelance Web Developer

Work from Home, Mahdia, Tunisia

12/2021- 10/2023

I possess a strong understanding of client needs, having conducted in-depth analyses of their requirements for web applications. Through close collaboration, I ensure their specific needs are met. Leveraging my expertise in PHP, Laravel, and Vue.js, I develop robust and user-friendly web applications. Furthermore, I seamlessly integrate and consume APIs to facilitate data exchange with third-party services.

Web Developer & Administrative Assistant

SEABELS GROUP SOUSSE, TUNISIA

01/2019- 11/2021

Skilled in ISO document management, ARABSOFT payroll/invoicing, and accurate report generation. Excel at analyzing data and proposing client-tailored solutions. Develop user-friendly web applications from complex Excel documents (PHP)
