EXPERIENCE

Freelance Web Developer
Self-Employed
Jan 2022- Present

My freelance web development journey has been dynamic. Not only have I delivered tailored web solutions to clients, but I've also played a pivotal role in nurturing the next generation of web developers by mentoring students for their final year projects. This multifaceted experience has allowed me to make a meaningful impact in the realms of client collaboration and education within the web development field.

Administrative Assistant & Freelance Web Developer
Seabels Groupe, Sousse, Tunisia
Jul 2018- Dec 2021

I concurrently held the role of Administrative Assistant at Seabels Groupe, where I handled administrative tasks related to payroll software, controls, and utilized Microsoft tools. Simultaneously, I worked as a freelance web developer, collaborating on various web development projects.

Intern at Tunisia SMS Company
Mahdia,Tunisia(Web Development)
March 2018- Jun 2018

I actively participated in web development projects, including the creation of the "Le Réseau Juridique" web application using Angular and Node.js. Additionally, I contributed significantly to the enhancement and modernization of the Mahdia commune's website, showcasing my versatility in web development and problem-solving.
